

Negotiation of WIA Title IB and System-Wide Workforce Performance Measures

In order to maximize the efficiencies, economies of scale, and benefits that a single 23 county local area provides, the Oregon Workforce Alliance will establish Workforce Investment Act Title IB and system-wide workforce performance measures. The Executive Director will be vested with the authority to negotiate with the state on WIA Title IB and system-wide workforce performance measures on behalf of the local area, and if necessary the regional level. Regions will be expected to provide input as to feasibility and reasonableness of performance targets.
